

## The Company of Biologists' DMM Conference Travel Grant

### Applicant Handbook

This handbook will help you to complete your application, and to understand the terms and conditions of the DMM Conference Travel Grant. **Please read thoroughly before submitting your application.**

#### What is a Company of Biologists' DMM Conference Travel Grant?

- The DMM Conference Travel Grant is aimed at early-career scientists wanting to attend meetings, conferences, workshops and courses relating to the areas of research covered by DMM (<http://journals.biologists.com/dmm/pages/aims>).
- For independent group leaders and PIs, the funding extends to practical courses and laboratory management courses.
- The maximum value of an award is £400 for travel within the home country and £600 for overseas meetings.

#### Who can apply for a DMM Conference Travel Grant?

- Applicants will usually be PhD students and post-doctoral researchers at the beginning of their research careers.
- Applicants from independent group leaders and PIs with no independent travel funding will also be considered.
- DMM Conference Travel Grants can only be applied for once annually.
- Multiple applicants from the same lab or department will be limited, and it is likely that only one will be awarded each round.
- Although there is no restriction on nationality, we are unable to pay awards to recipients in jurisdictions, countries or regions of the world subject to sanctions, embargoes or other political trade restrictions put in place by the United Nations, the EU or the UK.
- The amount given depends on demand and may provide only a portion of the requested funding.
- DMM does not fund applications made retrospectively.
- DMM reserves the right to reject applications to attend conferences or workshops that it considers to be possibly 'predatory' in design or fake.

#### How are applications assessed?

- A DMM Editor will review applications.
- Each application will be judged on the excellence of the candidate and any work being presented in a talk or poster.
- Preference will be given to applicants who are presenting talks or displaying posters, and whose work is most closely aligned with the scope of DMM (<http://journals.biologists.com/dmm/pages/aims>).
- Applicants will normally be informed of the outcome of their application within 6 weeks of the application deadline.
