

Read & Publish Open Access initiative

Journal of Cell Science

Launched in 1853, Journal of Cell Science publishes cutting-edge articles and reviews encompassing all aspects of cell biology – from the inner workings of individual cells to how they react and respond to each other and their environment.

Topics covered range from cell signalling, cell migration, cell adhesion, cell division and cell polarity, through to cancer cell biology, immunology, biochemistry and mechanobiology.

In addition to primary research articles, Journal of Cell Science publishes a range of commissioned review-based articles. These articles synthesise the latest advances in the field, put forward new hypotheses to provoke debate and inspire new research directions, and inform newcomers to the field.

Readership

Journal of Cell Science is read by a broad spectrum of scientists at all levels, including cell biologists, developmental biologists, molecular biologists, plant biologists and neuroscientists.

Abstracting and indexing services

Journal of Cell Science is abstracted and/or indexed by (amongst others): BIOBASE, CAB abstracts, Cambridge Scientific Abstracts, Current Contents, EMBASE, Clarivate Analytics Web of Science, Medline and Scopus.

Open Access commitment

As a transformative journal, we are working towards a greater percentage of Open Access content year on year. We promise to be transparent about all publishing options that we offer and about our pricing structure. We are actively working together with institutes through our Read & Publish initiative to offer authors worldwide a choice of publishing routes.

Key metrics

- 2023 Impact Factor: 3.3
- Five-year Impact Factor: 3.9
- Two-year citation median: 2
- Eigenfactor score: 0.02328
- Article Influence Score: 1.543
- Immediacy Index: 1.1
- h-index: 308
- Scopus Citescore: 7.3
- SJR indicator: 1.587
- SNIP: 0.883

Expert team of academic editors

Editor-in-Chief

- Michael Way (The Francis Crick Institute, UK)

Deputy Editor-in-Chief

- Kathleen J. Green (Northwestern University Medical School, USA)

Editors

- Renata Basto (Institut Curie, France)
- Daniel Billadeau (Mayo Clinic, USA)
- Simon Cook (Babraham Institute, UK)
- Andrew Ewald (Johns Hopkins School of Medicine, USA)
- Caroline Hill (The Francis Crick Institute, UK)
- Kairbaan Hodivala-Dilke (Barts Cancer Institute, UK)
- Megan King (Yale University, USA)
- Jennifer Lippincott-Schwartz (Janelia Research Campus, USA)
- Guangshuo Ou (Tsinghua University, China)
- Rob Parton (University of Queensland, Australia)
- Giampietro Schiavo (University College London, UK)
- Richa Rikhy (IISER, Pune, India)
- Tamotsu Yoshimori (Osaka University, Japan)

What are the benefits of Read & Publish agreements?

- Uncapped fee-free Open Access publishing of research articles in all our journals: Development, Journal of Cell Science, Journal of Experimental Biology, Disease Models & Mechanisms and Biology Open
- Unlimited "read" access to our three transformative journals (Development, Journal of Cell Science and Journal of Experimental Biology) and their archives
- Transparent cost-neutral pricing
- Reduces admin – single annual fee covers reading and publishing
- Easy to switch from a subscription to a Read & Publish agreement
- Easy compliance with funders' Open Access mandates

“ We are delighted to publish our article in Journal of Cell Science. The manuscript was handled professionally throughout and the whole process was straightforward. I am particularly happy the University of Manchester has a Read & Publish agreement with The Company of Biologists, which made the Open Access publication of the accepted version rapid and painless. I would thoroughly recommend Journal of Cell Science to other investigators in the field. ”

Professor Martin Lowe, University of Manchester, UK

Benefits of Open Access publishing

Usage increase **>3x**

Citation advantage **1.1-1.4x**

Altmetrics boost **1.2-1.9x**
